Bridging the GAAP

Tailored Solutions • Industry Experience • Dynamic Presentations

U.S. GAAP Update

This course is for persons with a sound knowledge of U.S. generally accepted accounting principles (U.S. GAAP) who would like to have an update of the recent pronouncements issued by the FASB, as well as new reporting requirements from the SEC.

Structured as either a one-day or two-day course, the agenda is tailored to your individual needs. Potential topics include:

- **Fair value measurement**
 - Reminder of fair value measurement guidance, including the fair value hierarchy and required disclosures
 - Inactive markets and disorderly transactions
 - Using net asset value (NAV) as a practical expedient to fair value
 - Measuring the fair value of liabilities
- **Recently issued guidance**
 - Accounting Standards Codification
 - Accounting for business combinations and non-controlling interests
 - Changes to consolidation guidance for SPEs
 - Revenue arrangements with multiple deliverables
 - Additional disclosures for derivatives
 - Subsequent events
- **Financial reporting issues arising from the global economic crisis**
 - Impairment of financial and non-financial assets
 - Provisioning
 - Financial statement and other (MD&A) disclosures
- **Practice reminders and "hot topics" from the SEC**
 - Relevant topics discussed at the AICPA National Conference on Current SEC and PCAOB Developments
- **What's on the horizon? Current exposure drafts and projects**
 - Financial statement presentation
 - Leasing
 - Revenue recognition in contracts with customers
 - Reducing the complexity in reporting for financial instruments
 - Disclosures about the credit quality of financing receivables and the allowance for credit losses
